STUDENT ORAL & POSTER SESSIONS

The Irish Postgraduate Research Conference aims to establish itself as a forum for early stage researchers to present their work to a varied audience and with an angle towards making their work accessible to a broader audience while highlighting how they are making a contribution to society. Both oral and poster presentations will discuss research in an interactive and multidisciplinary environment.

YOUNG RESEARCHERS SESSION

A special session will be dedicated to postgraduate students in the early stages of their studies. They will not only get the chance to present their ideas and research plans to a varied audience, but also get valuable feedback from Dr. Robert Elgie (Paddy Moriarty Professor of Government and International Studies, DCU).
